

Data source description

Salfo Bikienga

April 30, 2018

The project will use scraped data. The list of popular economics blogs can be found at the following link <http://www.onalytica.com/blog/posts/top-200-most-influential-economics-blogs/>.

To answer the challenge questions, three links have been used to scrape the articles:

1- <https://baselinescenario.com>

2- <http://www.overcomingbias.com/> 3- <https://pro.creditwritedowns.com>

In total, 11136 documents were scraped for this challenge.
